

ABSTRACT

The present invention relates to a method and related system for assisting and expediting an organization's transformation toward higher levels of the Capability Maturity Model (CMM). In particular, the present invention provides a method for producing a more mature product. A preferred embodiment of the method comprises the managing an organization developing the product, whereby the organizational management comprises managing personnel of the organization and implementing a product improvement process. The method may further comprise managing a project for developing the product and managing the delivery of the product. Furthermore, actions undertaken during the organizational management affects implementation of the project and delivery managements, and the actions undertaken during the project and delivery managements likewise affect implementation of the organizational management. In another embodiment, this method may be implemented using a combination of both electronic hardware and software and may be implemented locally or over a network such as an intranet or the Internet.
